

I am Simon

BMS GRADUATE

Today I work as

Vice President: Central Europe at Quandoo Deutschland GmbH

I decided to study at HOST because

... of its great reputation, its bi-lingual study program and its picturesque location at the "Sund" ☺

I especially liked

... the international orientation of the studies and the practical approach. I was lucky enough to learn from great leaders and empathic professionals who have turned to teaching in order to share their field experience with the high potentials of tomorrow. I also always felt supported by both, the administrative staff and professors.

On a side note I also would like to highlight the facilities and the excellent accommodation for students directly on the campus which -in my opinion- are second to none.

My BMS-study in 3 words

INTERNATIONAL/ HANDS-ON / WORK HARD & PARTY HARD ☺
