## **Section I: Scope, Study Requirements and Degree Structure**

### **§ 1 Scope**

These examination regulations regulate the study and examination procedure in the Bachelor's degree program International Management Studies in the Baltic Sea Region (BMS). For all examination matters not regulated in these regulations, the Framework Examination Regulations of Stralsund University of Applied Sciences of October 24, 2012, (Mittl.bl. BM M-V No. 12/2012, p. 1146), last amended by the 8th Statute for the Amendment of the Framework Examination Regulations of Stralsund University of Applied Sciences of January 21, 2021 (published on the homepage of Stralsund University of Applied Sciences), shall apply directly.

### **§ 2 Admission Requirements**

(1) Admission to the bachelor's degree course International Management Studies in the Baltic Sea Region (BMS) is regulated by §§ 17 to 20 of the State University Act.

(2) If the bachelor's degree course has admission restrictions, the University's own selection procedure regulations apply.

(3) Foreign applicants for the Bachelor's program must demonstrate sufficient English language skills for admission. These skills must correspond to level B2 of the Common European Framework of Reference for Languages and must be proven. The regulations of § 5 paragraph 2 no. 5 of the enrollment regulations of the University of Applied Sciences Stralsund, in their current version, apply to the proof of certification and its dispensability.

Applicants must not submit one of the above-named certificates if stipulated in the Enrolment Regulations.

### **§ 3 Duration and Degree Structure**

(1) The length of time in which the course International Management Studies in the Baltic Sea Region (BMS) can usually be completed with a bachelor's degree (standard length of study) is eight subject semesters. It comprises one internship semester and seven semesters of theory and the examinations, including the bachelor's dissertation and the colloquium.

(2) The internship semester usually takes place during the seventh subject semester. It is a supervised period of training that is integrated into the degree course, the content of which is defined and regulated by UAS Stralsund, that usually takes place in a company or at another institution related to professional practice and covering a period of at least 20 weeks. The contents and the subject requirements for the internship semester are regulated by the Internship Guidelines (Appendix 1 of the Study Regulations).

(3) A total of 240 ECTS points is required for successfully completing the degree course.

(4) The last study semester (the eighth subject semester) is mainly used for completing the bachelor's dissertation and the colloquium in accordance with §§ 24 to 27 of UAS Stralsund's General Examination Regulations and § 9 of these Subject-Specific Examination Regulations.

(5) The modules that belong to the 8<sup>th</sup> subject semester must be provided every semester.

## **Section II: Examinations, Overall Mark und Degree**

### **§ 4 Language of Instruction and Examination Language**

The modules and the corresponding examinations will be predominantly in English. Special regulations regarding the bachelor's dissertation and colloquium are stipulated in § 9 of these Subject-Specific Examination Regulations.

### **§ 5 Types of Examination**

(1) The types of examination are stipulated in § 9(2) of UAS Stralsund's General Examination Regulations.

(2) Written examinations with experimental work (see § 6) are a further possible type of examination. These are usually only provided every other semester as a component of the corresponding course.

### **§ 6 Written Examinations with Experimental Work**

(1) § 11 of UAS Stralsund's General Examination Regulations applies to written examinations as a form of assessment. Regulations regarding the 'experimental work' (EW) of the examination are stipulated in sub-section (2).

(2) In experimental work (EW), candidates should prove that they can combine theory and practice in the subject area and that they can complete a practice-oriented task. Experimental work can be assigned as team work. Specific types of experimental work are e.g.: Projects, exercise sheets, computer programmes, presentations, role plays, written assignments, video clips, laboratory experiments.

(3) The member of teaching staff responsible for the module assigns the task to be completed as experimental work and announces the proportion of the mark it will make up to the candidates in the first few weeks of the lecture period or during the course of lectures, and announces the date by which the work must have been completed or submitted. The task must be limited in such a way that the experimental work can be completed in accordance with the workload stipulated in § 10.

(4) If the marks for experimental work that was produced by a group differ between the group members, the member of teaching staff responsible must explain the

reasons as to why the marks were different.

### **§ 6a** **Exams with exercise certificate**

(1) For exams as a form of assessment, § 11 of the General Examination Regulations of the University of Applied Sciences Stralsund applies. Additionally, for an exam with an exercise certificate, it is intended that part of the assessment is completed during the semester in connection with the corresponding course during the lecture period. This is evidenced by an exercise certificate.

(2) Exercise certificates are awarded, among other things, for solving exercise tasks, laboratory experiments, computer programs, or short presentations. The type, scope, and weighting of the exercise certificate must be announced by the course instructor no later than the second week of the lecture period.

### **§ 7 Retaking of Examinations**

(1) The retaking of examinations is regulated in § 21 of UAS Stralsund's General Examination Regulations. If an examination is to be retaken, the type of examination stipulated in § 10(6) is legally binding.

### **§ 8 Regulations for Periods of Study Abroad**

(1) It is possible to complete one or more study semesters at a university abroad.

(2) If the study semester abroad is being used to complement the student's knowledge of theory, s/he must complete courses that correspond with 25 - 30 ECTS credits. The Examination Board is responsible for any exceptions with regard to the required number of ECTS credits.

(3) Either the internship semester or a semester of study must be completed abroad. Exceptions to this regulation can be granted to students who have a child under the age of 18 or who look after and care for a family member. These exceptions must be investigated individually upon written request to the Examination Board, submitted to the Student Office. The request must be accompanied by sufficient proof and reasoning.

### **§ 9 Bachelor's Dissertation and Colloquium**

(1) In accordance with § 20(1) number 2 of the General Examination Regulations, the bachelor's dissertation can only be taken by students who have

1. gained the required amount of ECTS credits in the same degree course at a tertiary education institution in the Federal Republic of Germany, or has completed coursework and examinations that have been recognised as equivalent in accordance with § 22 of the General Examination Regulations.

The required number of ECTS points are stipulated in § 10 of these Subject-Specific Examination Regulations.

2. The internship semester as stipulated in § 3(2) of these Subject-Specific Examination Regulations must have been completed and documented prior to registering for the bachelor's dissertation.

(2) As a general rule, the bachelor's dissertation must be written in English. On request from the student and after agreement with the supervisors, the Examination Board may allow for the bachelor's dissertation to be written in a different language; if this is the case, it must include a 15-page summary in English. The request must be addressed to the chairperson of the Examination Board and submitted in writing to the Study, Examinations and International Affairs Division.

(3) The colloquium shall be held in the language pursuant to § 9(2).

(4) The writing-up period for the bachelor's dissertation lasts 9 Weeks. The topic, the problem being addressed and the extent of the bachelor's dissertation must be limited by the first supervisor in such a way that it is possible to complete the bachelor's dissertation within the writing-up period.

(5) More detailed regulations regarding the bachelor's dissertation and the colloquium are found in §§ 24 to 27 of UAS Stralsund's General Examination Regulations.

## § 10 Module Examinations, Requirements, Marking and ECTS Credits for Modules

(1) If an examination is made up of more than one component, the components of the examination that have been failed cannot be compensated. Students must pass all of the individual components of the examination. Passed examination components will be recognised.

(2) Students must complete the following degree elements:

### Compulsory Elective Subjects

The Majors (elective courses) are divided into 4 areas of specialization, each with 5 modules, with 1 module designated exclusively for the study abroad experience:

- Management and Innovation (BMSB4000 – BMSB4400)
- International Finance and Trade (BMSB5000 – BMSB5400)
- Markets and Communication (BMSB6000 – BMSB6400)
- German Business (BMSB7000 – BMSB7400)

Students must choose at least 6 Majors in the 5th semester and at least 6 Majors in the 6th semester from the four areas of specialization. If students want one or more areas of specialization to be listed on their diploma, they must take at least 4 Majors from that area of specialization.

(3) The compulsory elective modules and languages will only be provided if at least five students have registered for the course. There is no legal claim to the provision of all compulsory elective modules. The Examination Board will decide on exceptions to the minimum required number of students.

(4) The modules that do not receive a mark will be recognised as ‘passed’ or not recognised with ‘failed’.

(5) A practice report is a written, independent piece of work that is not marked, but receives its own ECTS score. The module can only be recognised if an assessment component that does not receive marks is recognised as ‘passed’.

(6) Examinations can be held in forms other than those stipulated above if the scope of the examination is equivalent and the examination is evaluated according to the same criteria. The students must be informed at the start of teaching in each respective module (within one week after the start of the course) about the kind of examination and its scope. The examiner will select the type and scope of the examination that shall apply for all candidates in the same semester according to the following table:

<sup>8</sup> See § 10 (2). The type and scope of the examinations are determined by the examination regulations of the foreign universities. The grade of this module is calculated from the average of the grades of the individual module grades obtained abroad, which must all be evaluated with at least “sufficient” (4.0).
