

Hello, my name is Mahbub Alam. I'm from Bangladesh and I study Tourism Development Strategies.

I decided to study at the University of Applied Science, Stralsund because...

The beautiful campus University HOST offers a range of attractive, practice-oriented international study programs. Furthermore, HOST not only offers well equipped modern multimedia classroom and lab but also world class professors and teaching staffs.

I study Tourism Development Strategies (TDS) because...

After having my graduation in Business Management, I was looking for an internationally acknowledged master's program in business administration with a specialisation in the field of tourism. And since the program structure of TDS meets all my expectations, I didn't make any mistake to take the chance to study TDS, which provides me a perfect foundation for a successful career in the global tourism industry.

I especially like...

The open minded intercultural professors and friendly cooperative administrative staffs, show a great deal of understanding towards foreign students. There are a number of services available to provide support to international students during their studies at HOST. Advice is available from the professors, our department, central University services, fellow students and the student union.

The Hanseatic Town of Stralsund as location to study...

No wonder why the motto of HOST is: "Study where others take their holidays"! One can experience silence and the beauty of nature here in Stralsund. Its historic centre with its beautiful redbrick Gothic buildings is a UNESCO World Heritage Site. Even though Stralsund is not as big as Berlin or other big cities, a student won't feel bored in Stralsund because this amazing historic city has a lot to offer. There are 101 ways to enjoy the free time in Stralsund. For example, going to a museum, a cinema or a theatre, sitting in a beer garden, going for a walk on a beach, swimming in the sea, visiting old churches, or exploring the OZEANEUM. Overall Stralsund is an ideal city for nature loving students.

After my graduation...

I wish to attain a challenging position in Sales & Marketing at an international tourism company that will give me opportunities to prove myself as a great marketer.
