

Financial undertaking

3-semester and 4-semester programme

Based on the regulations of the Studienordnung § 4 Absatz (6) of the postgraduate degree course 'Tourism Development Strategies' the 3-semester and 4-semester program contains components which incur costs.

These components, such as:

- domestic and international excursions
- company visits
- social and intercultural events

are relevant to every student of the 3-semester and 4-semester master's degree course Tourism Development Strategies.

Therefore I,, born on irrevocably undertake to pay the costs arising from studying in the degree course 'Tourism Development Strategies', which amount to a maximum of **€ 2,170.00**.

The amount of **€ 1,970.00** must be paid **before enrolment**, and an account statement (or a transfer slip authenticated by the bank) has to be presented on enrolment.

The remaining sum of € 200.00 is payable to the account of the Hochschule Stralsund (for account details see enclosure) four months later. This means:

- for your matriculation in the winter semester, the 2nd instalment must be transferred by 1st January of the following year
- for matriculation in the summer semester, the 2nd instalment must be transferred by 1st July.

All financial obligations as stipulated above are enforceable. My personal data registered by the Hochschule Stralsund which are necessary for enforcement may be used by the Hochschule Stralsund and, if necessary, be transmitted to third parties (e.g. the court of enforcement responsible).

I understand that non-payment of the amounts specified above will prevent me from participating in mandatory components of my degree course. As a consequence I would be unable to comply with the stipulations of the examination regulations, which would lead to compulsory exmatriculation under §17, article 7 of the Law on Higher Education in Mecklenburg-Western Pomerania.

I understand that premature termination of my studies will entitle me to reimbursement of the amount not spent. However, costs incurred until exmatriculation will have to be paid by me in full.

Any disputes arising from this financial declaration are subject to the arbitration of an arbitration board nominated by the Hochschule Stralsund.

This declaration of commitment applies for the first time to students on the 3- and 4-semester programme in the summer semester 2027.
